

# THE FATHER-GODS DETHRONED: RESTORING SANITY TO HUMAN LIFE

RESCRIPTUM ATHENADORĪ N° 4: IN CULTŪS PATRIARCHUM  
RESRIPT N° 4 OF ATHENADORUS: AGAINST PATRIARCHAL RELIGION

**F**ather-god religions have been the basis, and agent of legitimacy of many human cultures for the past few millenia. Reliance on this dogma has caused the most vicious of societies to arise; they have enacted the most benighted of laws; they have perpetrated the most heinous of acts.

All father-god religions are based on one—and only one—belief. This is that the male is the first, original and perfect form. He is the sole true bodily incarnation of their celestial, self-imaged, male deity.

Following from that belief is the tenet that the female must, therefore, be secondary, derived and imperfect: unsuitable for divinity.

Yet are these beliefs true? No!

**W**hen life begins it has the form of the female. Only if the chromosome that determines maleness is present, and if it then chemically awakes during development can it effect those changes in the already developing, original, female form to convert it into that of the male:

“Contrary to the biblically derived idea that the female is a male with no penis, the truth is actually that *the male is a female with an adapted vulva.*”<sup>1</sup>

The male and the female are forms of the same Life. They must work together to perpetuate humanity and to further its freedom. Only when the tyrant father-gods are overturned and full partnership is restored between the sexes will sanity return to human life.

**B**ecause all father-god religions are based on—and inseparable from—the fallacy of the farmer’s allegory of reproduction and its idolatry of the male as the divinely ordained image of their male deity,  
**all father-god religions are hoaxes by their own definition.**
